WEATHER OF CONCERN

Weather of Concern

- A Flood Warning remains in effect for the Merced River at Pohono Bridge in Yosemite Valley, Mariposa County.
- Southern California temperatures are expected to rise significantly Monday as high pressure aloft, along with offshore flow and a high sun angle all come together.
 - Highs will reach the lower 90s across the Los Angeles County Valleys and mid to upper 80s along the coastal zone.
 - High temperatures will be 15 to 20 degrees above normal for this time of year.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Wet weather will remain through this morning. The next few days will be impactful due to a classic rain on snow event. Afternoon temperatures will be cooler than normal while overnight lows will be warmer than normal. The wind flow will be lighter today.

Ridging, which includes drier and warmer weather, will affect the area later today into tomorrow before breaking down on Tuesday.

[Weather models continue to show a series of Pacific waves, ushered in by a strong Pacific jet, impacting the region during the rest of next week and lasting into next weekend. The impact type and timing is less certain although expect some wetting moisture favoring the northern tier.](#)

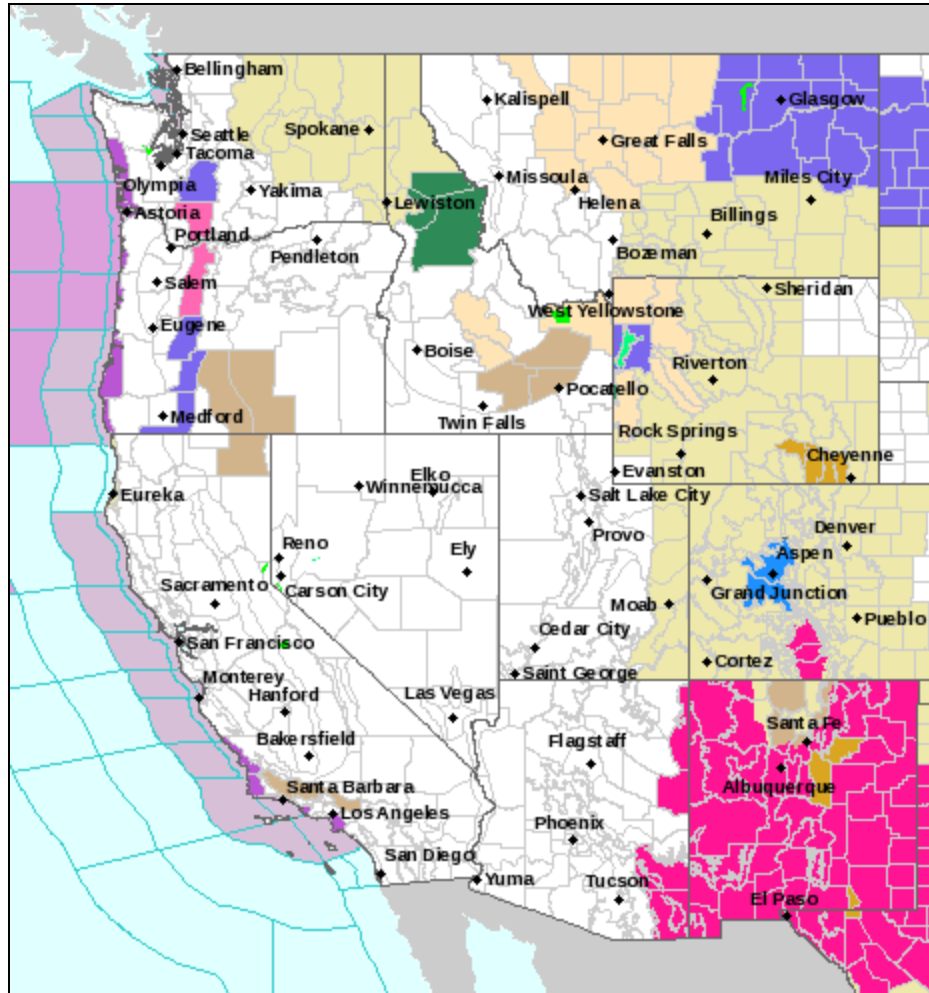

[Temperatures would also trend cooler with each wave passage and expect periods of stronger W-SW winds.](#)

SOUTHERN CALIFORNIA

Little or no rainfall is now anticipated across the region with the current storm. The back side of the trough will bring a few degrees of warming and lower minimum humidity to between 20% and 40% today. A ridge of high pressure will build into California from the Pacific Ocean causing temperatures to warm to 10 to 15 degrees above normal and minimum humidity to drop into the teens tomorrow and Tuesday. Temperatures will reach the low 90s over the warmer valley locations early next week. There will be local northeast winds of 10 to 20 mph with gusts to 35 mph over the mountains and below the canyons and passes of the region tomorrow morning.

[Another Pacific trough will approach and move inland across California bringing a significant cooling trend and an increase in humidity Wednesday and Thursday. Scattered showers with light rainfall totals will move across Central California Wednesday night and Thursday.](#)

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-46094, 04/07/18, 1558 hours:** The Air Force Rescue Coordination Center (AFRCC) reported a Personal Locator Beacon (PLB) sounding at the Palmdale Regional Airport in Los Angeles County. There was no registered owner (R/O) information on the device, which sounded only once then went silent. The Cal OES Law Enforcement Duty Officer (LDO) contacted and briefed Los Angeles County Sheriff's Department (LASD), who advised they were sending a deputy to check the area. **UPDATE: 04/07/18, 1845 hours,** LASD advised they checked the area with negative results. **UPDATE: 04/07/18, 1914 hours,** AFRCC notified the LDO the PLB silenced and closed out their incident. **Mission Closed.**
- **2018-LAW-46084, 04/07/18, 1014 hours:** AFRCC reported a PLB sounding in an area west of Highgrove in Moreno Valley, Riverside County. There was no R/O information on the device which sounded only once then went silent. LDO contacted and briefed Riverside County Sheriff's Department, who advised they were sending a deputy to check the area. **UPDATE: 04/07/18, 1753 hours,** Riverside County Sheriff's Department advised they checked the area with negative results. **Mission Closed.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
